

July 14, 2017

To: Offeror

SUBJECT: Alaska Aerospace Corporation (AAC) Request for Proposal RFP AAC 18-005 for the Life Support Area (LSA) Requirements in support of the Pacific Spaceport Complex-Alaska (PSCA).

Dear Sir or Madam:

AAC has a requirement to provide a Life Support Area (LSA) in support of the Pacific Spaceport Complex Alaska (PSCA) in accordance with the attached statement of work (SOW). To satisfy this requirement, AAC is soliciting a proposal with the intent of issuing one award based on availability of funds.

The proposal, referred to as the "Base Effort" includes the cost to mobilize, operate and demobilize the LSA as described in detail in the attached SOW. This requirement also includes the cost for food. The period of performance is August 15, 2017 through July 31, 2018. This will be a firm fixed price effort.

All proposals are due no later than July 28, 2017. A rough order of magnitude price (ROM) is required no later than 9:00 am AST July 24, 2017. As stated, award of the LSA contract is based on the availability of funds. Award will be made to the offeror with the lowest price, technically acceptable solution.

Please review the proposal instructions carefully and ensure that the proposal is submitted in accordance therewith. The proposal is to be valid for 120 days from the date of the submittal.

Direct any contractual questions to Doug Hunter or Art Isham by phone at (907) 561-3338.

Sincerely,

Douglas L. Hunter
Contracts Manager
